SUPERIOR FILLINGS

Superior Fillings

kff fillings are made to order in a purpose built production kitchen ensuring maximum shelf life at time of delivery. Mixed by hand to ensure the more delicate ingredients are not damaged, the finished product looks more homemade than with machine blended fillings.

kff realise that the consistency of our products is absolutely vital to you and your customers. For this reason, our fillings are constructed using computer generated recipes, which guarantees the correct ratio of ingredients is used each and every time.

Development

We at kff continually review and develop our range of Purple Pineapple sandwich fillings to offer our customers more choice at the highest quality. Based on our latest research findings and customer feedback, we have created a host of innovative new flavours whilst improving some of our existing offerings. Keep a look out for our **NEW** and **IMPROVED RECIPE** symbols throughout the brochure.
