CanO Water Natural Spring Water 500ml - Resealable

Short Product Name:
Natural Spring Water

Only 7% of plastic is recycled. The rest will sit on our planet for the next 450 years and ends up in our forests, oceans or even our stomachs. Recycling plastic isn't working. We believe switching to aluminium is the fastest solution to plastic pollution. It's why we put water in a can CanO Water is an infinitely recyclable alternative, with a mission to stop a billion plastic bottles from entering our environment! Our spring is in the Austrian alps – down there they know a thing or two about water thanks to some pretty mineral rich mountains. This means our water has a high pH Level of 7.9 and increased alkaline concentrations – which means it super pure and tastes incredible. Don't Bottle It!
