Allergen Statement

Our vegan products contain no milk however, the factory in which the vegan products are made, uses milk and dairy. Because of this, all equipment used during the production of vegan products is swabbed with Reveal® 3-D for Total Milk Allergen Swabs which are used to test the qualitative analysis of milk residue. The swabs must all show a negative result before production can start. We contacted the Vegan Society and Campden BRI concerning this issue and they advised us, that as we are not a designated vegan factory, we should include the following statement on the specifications for our vegan products: "Produced in a factory which handles milk and therefore may contain milk."
