I just wanted to say thank you for all your efforts with providing FSM parcels for the students at HRCS last week. We have received a large number of very positive emails from parents expressing their gratitude and in particular for the Gingerbread men.

Your effort and contribution are very much appreciated,
thank you
Best wishes

fantastic company making shopping in this current climate ideal. We ordered yesterday and collected a great selection of frozen , fridge and cupboard food . The helpful staff put the food in the boot of the car. Would thoroughly recommend.

Placed my order Thursday eve and picked up Friday morning. Great selection of food, clearly signposted where to go on arrival, very organised and friendly staff advised me to stay in my car and they'd load directly into my boot. I'd been really anxious about having to make a trip to a supermarket, but ordering through you took that completely away! Thank you so much, I will definitely place another order once we've made our way through what I picked up yesterday!

5 stars to Kff click and collect. I can't recommend this service enough at a time like this. I placed the order this morning and collected 2 hours later. We parked the car and everything was loaded into the boot, we didn't have to do a thing. Do not be put off by the bulk quantities, I have split everything up and I am dividing it with my family. Because some of them are isolating I am able to drop it to their doorstep so I know they have everything they need during lockdown. I highly recommend the huge catering cheddar cheese, it tastes amazing and is perfect to split with family or neighbours. Do not hesitate to use this service. Also a big thank you to Daniel Babicz for making me aware of this service and answering all of my questions about the process and the products. You are a star. Thanks KFF, keep up the good work. Best wishes, stay safe
