DELIVERING QUALITY TO THE CATERER

At KFF we believe that buying British provides vast environmental and social benefits such as reducing food miles, supporting UK farmers, dairies and other British producers, whilst satisfying the growing consumer demand for fresh produce, provenance, and traceability. This is why we have chosen to partner with businesses that have some of the best food Britain has to offer.

As you would expect from our name, we have tapped into the 'Garden of England' to bring you creamy cheeses from Cheesemakers of Canterbury, rustic pies from Kentish Mayde, and delicious pork sausages stuffed with herbs and spices from Korkers, but we also have suppliers as 'far' away as Stokes Sauces in Suffolk,

and Yorvale dairy ice cream in York. What all of these businesses have in common with us is a passion for supplying local, artisanal products which you can now buy, along with your fresh fruit and vegetables, fish and seafood, and meat and poultry, right here at KFF.

## WEALD SMOKERY

Situated on the Kent/Sussex border The Weald Smokery has been winning awards for its products since 1998. From fish and shellfish such as salmon, trout, and mussels, to meat and poultry including chicken, bacon, and venison, it's all here, delicately smoked, and ready to wow your customers. They can even finish their meal with a glass of port and a chunk of rich, smoked, Stilton cheese.

## WILD HARVEST

Our sister company, Wild Harvest, is a leading fine food specialist and a true Aladdin's cave for chefs, supplying 75% of the UK's Michelin-starred restaurants. Its range includes a variety of the finest fruit, vegetables, salads, and herbs sourced from around the world at their seasonal best, artisanal cheeses, butters, milks, and other dairy produce, as well as a stunning array of fresh and cured meats and a selection of premium seafood and caviar.

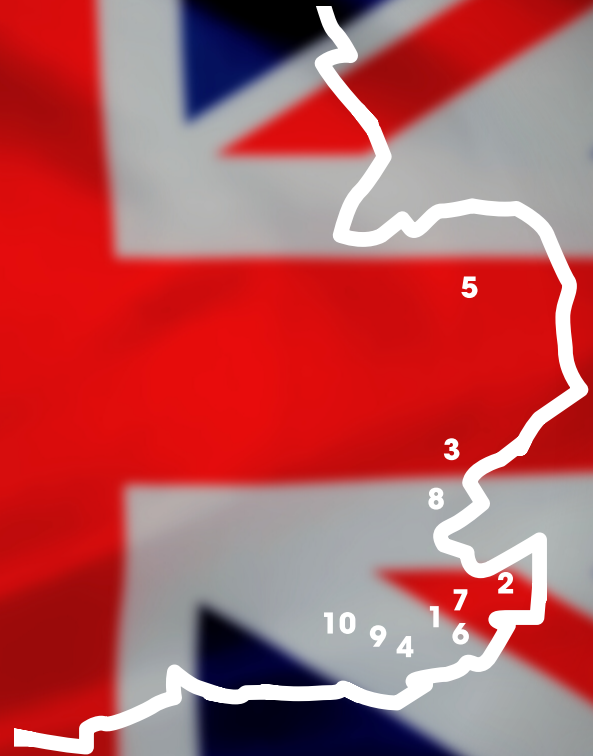

# BENEFITS OF BRITISH

Buying British provides vast environmental and social benefits, reducing the number of miles food travels, supporting UK farmers, dairies and other British producers whilst satisfying the growing consumer demand for fresh produce, provenance and traceability.
