Best of British

Buying British provides vast environmental and social benefits, reducing the number of miles food travels, supporting UK farmers, dairies and other British producers whilst satisfying the growing consumer demand for fresh produce, provenance and traceability.

It's not only about great British products – but the story behind them, told by the owners (many of them families) who have spent their lives dedicated to manufacturing high quality food and drink for the local market, often using traditional methods of production.

Here are just a few....

1

1 STOKES SAUCES

Founded in 2004, and based in Renlesham Hall near Woodbridge in Suffolk, Stokes have worked with a rare passion to refine the taste, texture and quality of their locally-produced ketchups, sauces, condiments, preserves and mayonnaise.

They hand produce their sauces to carefully created and closely guarded recipes using the finest quality ingredients.

Make your food offerings extra special with Stokes sauces - there is plenty to choose from to add something different to your dishes.

2 YORVALE

For almost 30 years Fossfield Farm has been the home of York's only real dairy ice cream, Yorvale.

Using traditional methods and the finest natural ingredients they produce rich and creamy dairy ice cream and real fruit sorbets. Their herd of dairy cow's graze on lush Yorkshire grass and because they only ever produce milk for the dairy, the result is stress free cows that produce really creamy milk which is pasteurised on the farm before being mixed with the finest natural ingredients to create their exquisite products.

3 KENT CRISPS & OILS

Kent Crisps carefully select and partner with the best British producers to combine the country's finest products and bring you flavours we all know and love. Kent Crisps have become one of the leading names in the UK snack sector. Proudly, they were one of the first UK hand-cooked crisp brands to use real products and incorporate them into seasonings. They carefully select the best British producers to work closely in partnership with.

Every bottle of Kentish Oil has been produced by hand in small batches, quality checked and packaged with love. Kentish Oils have been producing cold pressed rapeseed oil at an accredited farm-based unit since 2008. The rapeseed is grown on the fields surrounding their premises, offering 100% traceability of every bottle produced, back to the field it's grown in.

Kentish Oils carefully select varieties of rapeseed to give you nutritious and tasty oils. The whole range of Kentish Oils products are Red Tractor certified, so not only can you trust in the provenance, they can also guarantee your 'Farm to Fork' experience. Kentish Oils are championed by some of the UK's top chefs and have been described as 'liquid gold'.

4 CHEESEMAKERS OF CANTERBURY

Operating from Lamberhurst Farm in Faversham, Kent, The Cheesemakers of Canterbury produce a range of full flavoured cheeses. Amongst their range includes several award-winning products from the prestigious World Cheese Awards. Using her previous dairy experience, owner and cheesemaker Jane Bowyer sources only the best, most suitable milk from local farms.

The extensive cheese making process is carried out by a small team using traditional handmade methods. After milling, the cheese is wrapped in muslin and pressed for two days in original 19th century presses. Following this stage, the cheese is unwrapped and placed "nude" on old pine shelves in the maturing room for several months. During this time, every cheese is checked and turned over daily.

5 WEALD SMOKERY

Founded on a heritage of ancient food preserving methods, The Weald Smokery has grown considerably to become one of the leading smokehouses in Britain. Using the finest quality raw produce, all their meats and fish are smoked using two traditional methods.

The first is "Hot Smoking" whereby the product is cooked during the process over burning oak logs and chippings in traditional brick-built kilns. The other method, "Cold Smoking" is used when the product requires no cooking - instead smouldering oak chippings are used to gently infuse the smoky flavour.

The Weald Smokery are now proud to boast one of the finest, specialist smoked product ranges in the South-East from their site in Flimwell, East Sussex. The team of experienced smokers utilise their expertise daily producing an extensive range of superior smoked meats and fish. This has proven to be a successful combination as they continue to receive product recognition at the Great Taste Awards, year after year.

Inspiration: Trends

Flexitarianism

Reducetarianism has recently been dubbed a top trend to watch out for in 2023 and is perfect for plant-curious customers who aren't ready to give up meat entirely. We have an excellent selection of meat alternative products from burgers and hot dogs to Squeaky Bean meatless meatballs and The Vegetarian Butcher no chicken chunks which will help you create dishes which wouldn't look out of place on any menu.

Streateries

With everyone keen to stay outdoors, restaurants and bars are 'taking it to the streets' with all manner of street and curb-side dining options. Take a look at our range of authentic ready to use sauces from The Street Food Company to bring a taste of Indonesia to your menu as well as a collection of recipes on our website to help inspire.

British is Best

More and more consumers are choosing to dine in venues based on their stance on sourcing British produce, which is why we source our meats from quality British suppliers less than 30 miles from our depot, our partners Fresh Direct source their fresh produce direct from UK growers when in season and M&J Seafood buy direct from fisheries around the British coast.

Seasonality

Over the last 30 years, fresh produce has been widely available throughout the year meaning seasonal produce on menus becoming somewhat obsolete. With consumer trends heading more favourably towards Local and British produce we can advise as to when produce is at its best with PDF seasonality charts which will enable the discerning chef to create a menu-based availability of product when it's at its best.

Fresh Meat

At kff we never compromise on quality and our **NEW** fresh meat offering is no different. We have teamed up with British Meat Suppliers which will enable us to successfully offer our customers the very best butchered meat straight to their door.

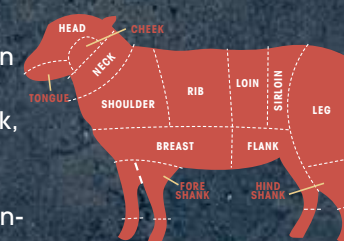

Every meat order that goes through kff is cut bespoke just for kff, this allows us to offer you a daily order of quality meat that your business can be proud of.

Each of your orders is dealt with by a butchery professional and with the same level of service you have come to expect from kff, your local wholesaler.

Lamb

It's a known fact that lambs are best reared on meadows rich in grass and clover, yielding dark, close-textured meat, so we only use farms who share our passion for non-intensive farming and have total control of their animal's welfare.

All of our lamb is sourced using abattoirs based in Kent and the surrounding Sussex and Surrey areas which are home to superb farms and farmers.

We select only the finest lamb which conform to a set specification of grade and size to ensure that uniformity in produce and great eating tenderness is guaranteed.

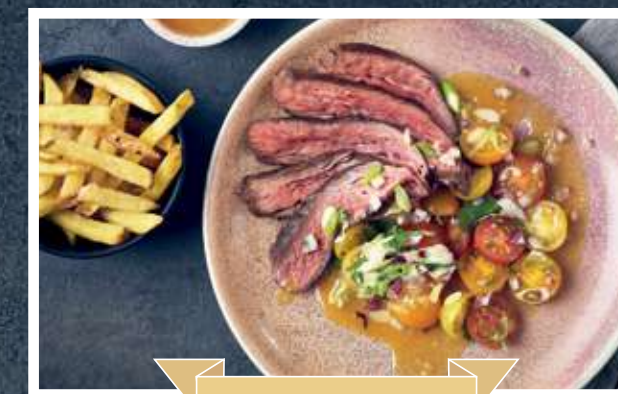

Chicken

All the poultry we source is from higher welfare farms cross the UK but predominantly in Norwich.

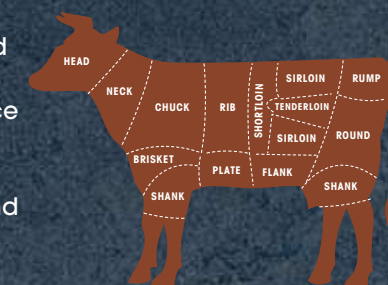

The welfare and hygiene of the chickens is of the upmost importance to kff and our British meat suppliers which is why they are inspected and audited regularly to ensure you receive the highest quality product.

At kff we care passionately about the poultry you order, from its life on the farm right up to the moment it is delivered to your kitchen.

Beef

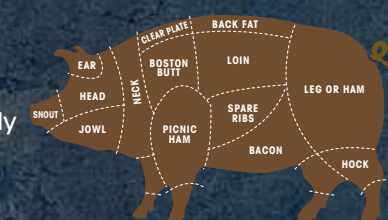

All our beef is hand selected and chosen from choice UK and Irish farms and abattoirs, sourcing Angus and Charolais breed beef. These cattle are graded and selected for us to ensure their quality, uniformity and yield for both steaking and roasting. Our skilled butchers hand select beef to butcher the best quality products for you.

Pork

All the pork we supply our customers derives from the UK, mainly from the Essex County. On these farms the young pigs are fed with a highly nutritious creep and weaner diet to encourage growth and enhance gut condition for optimum health and happiness.

Growing pigs are housed in social groups with free access to well strawed tented lodges which are nice and snug in winter and cool in summer in a large paddock area overlooking the river Alde and its estuary.

Fresh Fish & Seafood

We have partnered with one of the industry's leading fish suppliers to offer you a range of fresh fish, as well as a comprehensive frozen range.

Getting seasonal British fish and seafood on your menu is easy.

M&J Seafood follow the catch as it migrates around the coastline and know exactly when and where to be to get the very best of the catch.

Sourced **the right way**

M&J only ever buy from suppliers who pass their tough technical approval process. This rigorous chain of custody means we can trace every catch from sea to plate.

Food labelling

What is Natasha's Law?

Natasha's Law is a revised legislation that came into force on October 1st 2021 to further protect allergy sufferers and give them confidence in the food they purchase, by requiring more types of food to have potentially life-saving allergen information provided on the label.

What does it mean?

Food businesses will be required to provide full ingredients lists and allergen information for all prepackaged for direct sale (PPDS) foods on the premises. The new legislation is being introduced to provide full allergy advice and give all customers the confidence in the food they buy.

How can we help?

We can support you with all the information you need to understand the new law, as well as provide you with easy to access product & allergen information, and end-to-end recipe management, printer, and labelling solutions to help you achieve compliance.

A three-way partnership has been developed between - Sysco Speciality Group, Planglow's labellogic live' who are an industry leading food labelling expert, and our allergen and nutritional database specialist Erudus.

This exciting development will give you the tools to manage the introduction and ongoing management of Natasha's Law in a very cost-effective way.

How to access the information you need from us

We have been working hard on making sure this information is easily accessible to our customers.

PDF Downloads – once signed into your account you can NOW download specification sheets. These are available on all product pages.

Live information feed from the online database - Due to the newly installed live API feed as soon as a specification is altered/changed this is represented on our website.

Preference set up - you'll now receive an attachment with every online order confirmation email. This contains Allergen and Nutritional information for products on that particular order. You also have the option to change the information that you receive by selecting criteria via a tick box system.

You should always read the label before using the product and never rely solely on the information presented here or any database provided. All prices are correct at time of print.

Things you need to know

The new food labelling requirements

- The new allergen labelling requirements will apply to a category of food called 'prepacked for direct sale' (PPDS) from 1st October 2021.
- This is food which is packaged at the same place it is offered to consumers.
- Typical examples would include sandwiches packaged and sold from the same premises or fast food wrapped or packaged before a customer selects or orders it.
- Made to order or unwrapped foods are not affected by this new law, although allergen information must still be available for these products.

What is prepacked for direct sale food?

'Prepacked for direct sale' (PPDS) food is determined by three criteria - all three must apply:

- 1 **What?** (PPDS) food is packaged before the consumer selects or orders it. Any food that is not in packaging when it is ordered, or is loose and is packaged after being ordered, is not included.
- 2 **Where?** (PPDS) food is packaged at the same premises or at the site it is presented or sold to the consumer. This also includes: Food packaged by the same food business and sold at a temporary or mobile site, such as a food truck or market stall. The same food packaged and offered at different units in one building complex, such as an airport, hospital or shopping centre.
- 3 **How?** (PPDS) food is in packaging which meets all of the following criteria: the food is fully or partly enclosed by packaging, the food cannot be altered without opening or changing the packaging, the food is ready for final sale to the customer.

What new information is required on the label?

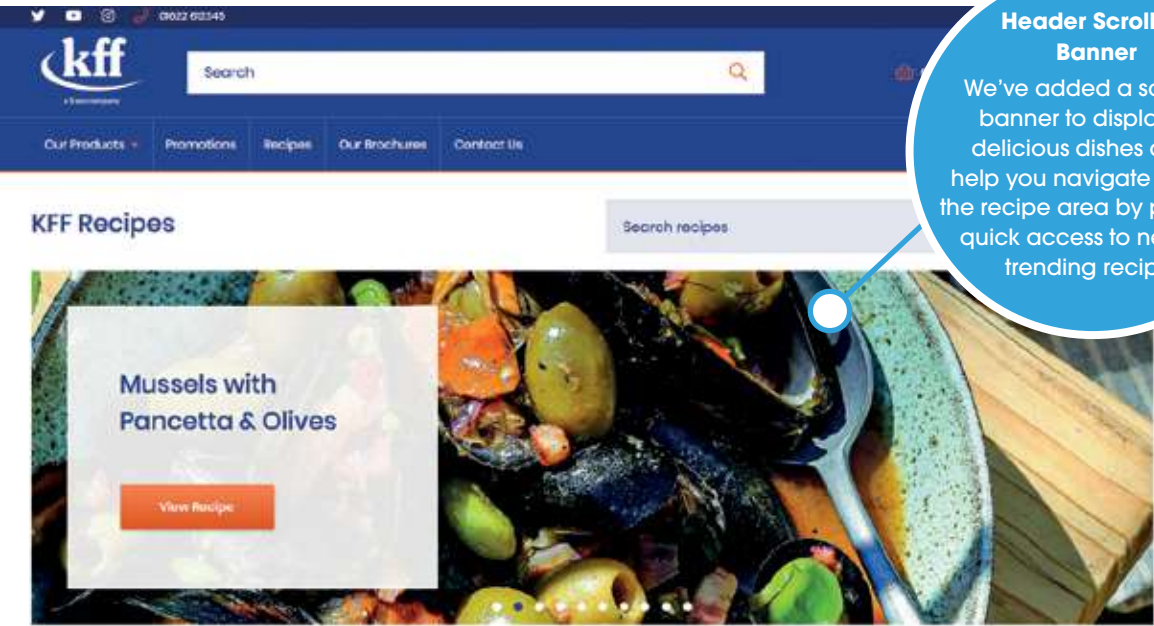

- The name of the food.
- Full ingredient list with the 14 declarable allergens clearly emphasised in the ingredients list when present (for example in **bold**, underlined, CAPITALS, italics).
- Your ingredients must be legible and meet the minimum font size (where the x-height is equal to or greater than 1.2mm, although this can be reduced to 0.9mm on packaging where the largest surface has an area of less than 80cm²).

- COOKING TIME 40-45 MINUTES
- PREP TIME 15 MINUTES

INGREDIENTS

- 1 TBSP OLIVE OIL
- 1 RED ONION, PEELED AND FINELY SLICED
- 1 GARLIC CLOVE, PEELED AND CRUSHED
- 1 YELLOW PEPPER, DESEEDED AND SLICED
- 1 TBSP SWEET SMOKED PAPRIKA
- 1 TIN CHERRY TOMATOES
- 1 415G TIN HEINZ BAKED BEANZ
- 4 LARGE FREE-RANGED EGGS
- 1 TSP DRIED CHILLI FLAKES
- SMALL HANDFUL OF CHOPPED PARSLEY
- TOASTED FLAT BREAD TO SERVE

METHOD

- Pour the oil into a large frying pan and add the onion and garlic. Fry until they just begin to soften, then add the sliced pepper and paprika. Cook for a further 5 minutes.
- Pour in the tinned tomatoes and the baked beans, give everything a good mix and leave to simmer over a medium heat for 10 minutes while stirring occasionally.
- Make four small wells in the sauce using the back of a spoon. Break an egg into a cup and drop carefully into each well. Cook over a gentle heat for a few more minutes until the whites are just set and the yolks are still runny. Sprinkle over parsley and chilli flakes.
- Serve with toasted flat bread.
