FRESH FISH & SEAFOOD

We have partnered with one of the industry's leading fish suppliers to offer you a range of fresh fish, as well as a comprehensive frozen range.

Doing business the right way

Where your fish and seafood comes from, how it was caught and how it's been handled is extremely important which is why you can rely on us and our trusted partnership with M&J Seafood.

Sourced the right way

M&J only ever buy from suppliers who pass their tough technical approval process. This rigorous chain of custody means we can trace every catch from sea to plate.

Handled the right way

M&J branches are fully BRC accredited and so are we. This globally recognised standard for food safety gives you no-nonsense assurance that all our fish and seafood has been handled and stored competently and safely.

Delivered the right way

Kff have full traceability right through the supply chain and all our vans are fully temperature controlled, which means that the fish and seafood we supply our customers are in the best possible condition when they reach your kitchen. Gone are boxes full of ice, we supply fish in new state of the art thermoformed packaging.

So, what can you expect from your delivery?

- ✓ Smaller 'convenient pack sizes' to suit all site requirements
- ✓ Simple pack size format for easier site controls
- ✓ Splitable packs (less product waste)

Getting seasonal British fish and seafood on your menu is easy. M&J Seafood follow the catch as it migrates around the coastline and know exactly when and where to be to get the very best of the catch.

Here's some of our favourites;

Crab

It's versatile, plentiful and tastes the business. So, it's no great surprise that British Crab is seen as something a bit special in some of the top kitchens in the UK and around the world. Pot-caught by day-boats all around the UK coastline. In season from April but at their best from June to October.

Mussels

Rope grown in the clear waters in Scotland, these Live Mussels are MSC accredited and are delivered in handy nets. Good all year round but at their best quality from October - April.

Monkfish

Best in late winter and early spring but available for most of the year. Caught in the North Sea as well as the South West where the fish has firmer flesh and higher yield.

Hake

Best from March through to May and later in the year from August to October. Caught in the North Sea and by an MSC certified fishery in Cornwall.

FOOD MADE BETTER

VIEW THE FULL RANGE AT KFF.CO.UK

Based in Renlesham Hall near Woodbridge in Suffolk, Stokes have worked with rare passion to refine the taste, texture and quality of their locally-produced ketchups, sauces, condiments, preserves and mayonnaise.

They hand produce their sauces to carefully created and closely guarded recipes using the finest quality ingredients.

Make your food offerings extra special with Stokes sauces - there is plenty to choose from to add something different to your dishes.

When we started and why...

Stokes Sauces was founded in 2004 by Rick Sheepshanks when he was looking for a real food sauce that would encourage his daughter to eat more vegetables. Stokes is a food business born from the belief that food should be honest, simple and delicious. Stokes carefully creates unique recipes using great quality real food ingredients for real food flavours. Their aim is to make the very best sauce available.

Based at their 'Suffolk Saucery' in rural Suffolk, Stokes Sauces has since grown to a team of over 70 incredibly hard-working individuals and have expanded their range to include over 60 different delicious sauces, mayonnaises, traditional condiments, chutneys & relishes, and jams & marmalades, all made with the same original passion. Furthermore, Stokes are always striving to create innovative solutions, and as a result, have 'real world portion' sized sachets, reusable 2kg catering tubs and exquisitely packaged glass table sauces all as part of their range to put smiles on the faces of happy diners!

Environmental focus

As a family business with a caring heart, Stokes have taken steps in recent years to reduce their environmental impact such as their commitment to work towards zero to landfill. Rick, the founder of Stokes, is passionate about the environment and is undertaking an extensive programme of tree planting and continues to give a loving home to over 250 rescued and re-homed animals.
