Veganism Explained

In the last edition of our Vegan brochure, we explained in simple terms what veganism was, what vegans eat and why establishments should adapt their menu. Since then, the meat free, plant-based diet has exploded leaving eateries no choice but to embrace this change, however it's not just a case of simply adding vegan friendly options to your menu! We have created this section to aid all establishments in not only embracing this menu change but making it increase footfall and profits!

Why adapt or change?

A third of Britons have stopped or reduced eating meat*

*Guardian 2018

Don't include the word 'Vegan'

Studies show a reduction in the likelihood of customers ordering items when the word 'vegan' was used in the name.

Use symbols rather than isolate

Rather than creating a separate 'vegan' section use a key and symbols and incorporate it in your existing offering.

Descriptions are key

Instead of calling a dish meat free or alternative - sell its benefits for example provenance or flavour.

Adapting your Menu

It's not just about throwing in a couple of readymade vegan dishes to your existing offering!

In order to successfully adapt your menu, key operational and ethos changes need to happen. Luckily here at kff we have created this essential check list which will enable for a smooth transition.

- 1 Training**
Chefs need to have the right tools and ingredients and others the knowledge and confidence to promote and sell the new offering.
- 2 Tasting**
The proof is in the taste - If staff taste the product they'll then understand just because something might be plant-based it can still taste great!
- 3 Easy Wins**
Review top menu items and introduce plant-rich alternatives.

- 4 Be Proud**
Make sure your new additions are in the main body of your menu not hidden in a corner or sub-section.
- 5 Be Flexible**
If customers want to add meat to a plant-rich dish why not?
- 6 Innovate**
It's not good enough to add items on your menu and leave them, like any other dish trends change so don't stand still!
- 7 Promote**
Cross selling with side dishes or specific drinks or desserts can always push menu items to the forefront.
